THE EXTREME GLOBE RIDERS

- "THE SHOW OF THE YEAR" (Motorpress-Iberica)

After the creation of the Extreme Globe Riders Show (ex. Motorodeo) in 1999, has conquered already the admiration of spectators in 16 countries

On the year 2005 the first and only acrobat woman in the world of motors, Nordic princess Heidi Sarpola joins the spectacle. Capable of stopping our heartbeats with her beauty and bringing us back to life with her aggressive and risky riding, accelerating our emotions to the limit, a charming blonde which turns explosive on her motorbike inside her huge Iron Sphere.

Imagine these two daring and experimented acrobats accelerating their motorbikes through the Sphere "an enormous metallic sphere structure with 6 meters of diameter" at increasing G forces over 5 with mill metric coordination to avoid collision.

The show is made up of three parts:

Mikko starts riding solitarily and proofs why he is the best and most intrepid specialist in Europe, being him the only one in the continent capable of riding completely upside down defying the laws of gravity.

The awaited moment comes and tension rises, beautiful and daring Heidi comes in action with Mikko to perform spectacular riding in opposite directions while they concentrate with fast and calculated moves defying disaster.

The exciting end approaches and a volunteer from the public is invited to enter the sphere and be part of the show so he can live in flesh the adrenaline rage that comes from being at extreme short distances of Mikko & Heidi, while they furiously race around up and down at thrilling speeds.

To give a unique environment to the show we incorporate special music, light and smoke effects, and of course a great speaker which will comment and introduce the pilots manoeuvres to the audience to make them tremble all the time.

The show of the Extreme Globe Riders requires a relatively small space, and because it does not produce any pollution it may be done indoors as well as outdoors.

THIS IS AN EXPERIENCE YOU WILL NEVER FORGET!

THE SHOW

- > No weather restrictions. Now we have a cover for the globe.
- > It can be performed several times a day, but more than 6 times is not recommended for health and security reasons.
- > The show is about 20-25 minutes long.
- > Every child receives a free autographed poster after the each show.
- > The show is combined with the showmanship and humour the show offers
- > 100 % hassle-free entertainment
- > We have our own special effects based on sound equipment, light and smoke systems, which makes us fully self-sufficient.

INSURANCES

- > Extreme Globe Riders Extreme Globe riders take safety seriously, we are fully covered by outstanding insurance policy.

EVENT REQUIREMENTS

- > The minimum area what we require is 8 meters length, 8 meters width and 8 meters height.
- > We will need only the electric for our lights, sound equipment and smoke systems. (220 V electricity)

GLOBE

- > The iron globe is 6 meters in diameter and it weights 3000 kg
- > The Globe can be set-up in about 8 hours within a 25 meters space in or outdoors, by its own team. In its unassembled form it consists of 24 main units that are easily transported on the back of our display truck.

MOTORCYCLES

- > We have been driving now since the year 2000 with the Gas Gas Pampera. The fuel of the bike is contained two-stroke-oil and 98E-octain Gasoline.
- > We have a Statement from the Finnish Department of Environment explaining that our shows make no harm or nuisance with exhaust gases even to the

SO, NO SMOKE, NO SMELL, AND EXCESSIVE NOISE, PERFECT FOR IN- OR OUTDOORS, EVEN FOR EVENTS IN RESTAURANT AND NIGHTCLUBS.
